### PACKAGES

I know how hard it is when you bring home your new baby, juggling all those adjustments to parenthood - the hormones, the feeding and, not to mention, the sleep deprivation. Let's be honest, it doesn't end there either - the trials and tribulations of being a parent, with the after school activities, finding that special toy that **MUST** come with you, or dealing with the infamous question, "What's for tea?!"

Believe me, I know how tough it can be.

This is why I have decided to add to my packages (2 and 3) £50 and £100 print credit to be used on your online gallery. This means you will have an amount (depending on package) of credit available in your online gallery to buy prints, thank you cards, frames, and more. Endless possibilities to display and share your new photographs, all there for you, one click away.

#### DIGITAL PACKAGE 1

£250

- 5 digital files downloadable from the online gallery.

#### DIGITAL PACKAGE 2

- 10 digital files downloadable from the online gallery.
- £50 Print credit to spend in the online shop.

## FULL DAY WEDDING FEES

### FULL DAY WEDDING PHOTOGRAPHY

£1800.00

Full-day wedding sessions involve photography from the morning preparations to the later evening (when the dancing is well underway). All files are professionally edited and posted out to you on a USB. Files will also be uploaded to an online gallery that is password-protected, for you to access and share with family and friends.

Prints can also be purchased online.

Full-day wedding sessions are recommended for all weddings, but I can accommodate smaller wedding with a bespoke package.

### SECOND PHOTOGRAPHER

£400

If you would like to have a second photographer present on the big day, it's a great idea. This is worth considering for big weddings, and (or) different venues. Two photographers mean both morning preparations and the wedding day/evening will be covered, resulting in a greater amount of candid photos of your guests.
